

Issue No.52

SEPTEMBER NEWSLETTER

BACK TO SCHOOL, BACK TO ROUTINE

September brings earlier mornings, busier schedules, and a return to everyday routines. A quick 15-minute home reset can help keep things running a little smoother as everyone settles back into the swing of things.

THE 15-MINUTE HOME RESET:

Reset the entryway: Give backpacks, shoes, keys, and everyday essentials a designated spot.

Create a grab-and-go zone: Keep snacks, water bottles, and lunch essentials together.

Clear the counters: A clutter-free kitchen makes busy mornings feel a little easier.

Tackle the paper pile: Sort mail, school papers, and anything that's been collecting.

Prep for tomorrow: Set out what you'll need the night before to make mornings less rushed.

Quick evening pickup: Spend the last few minutes putting things back where they belong.

15 minutes tonight can make tomorrow morning feel a whole lot easier.

COMMUNITY SPOTLIGHT

TRAVELING LIGHT
FOUNDATION

Illuminating the Path to Learning

The Traveling Light Foundation is on a mission to make learning accessible, engaging, and filled with joy. Through science, technology, engineering, arts, and mathematics (STEAM), the foundation creates opportunities that encourage curiosity, creativity, and the freedom to dream big.

The Heart Behind the Foundation

The foundation was inspired by the life of Ronan Godfrey, a young boy with a deep love for reading, art, creativity, and discovery. Though his life was tragically short, Ronan's passion for learning left a lasting impact. His family created the Traveling Light Foundation to carry that spirit forward and inspire others to explore, create, and learn without limits.

Past Project They've Supported

In honor of Ronan, the Traveling Light Foundation recently helped create a professional podcast studio at Duniway Middle School. The new space gives students hands-on opportunities to explore storytelling, music, recording, and editing while developing skills they can carry into the future.
