- **Pressure wash** your driveway and walkways to keep your paths clean and clear of debris, giving a neat and polished look.
- **Tidy up garden beds** by removing dead summer plants and trimming back anything that has become overgrown.
- **Add a fresh layer of mulch** to make your garden beds look cleaner while helping landscaping transition into the cooler months.
- **Swap out doormats** with a festive, fall-inspired doormat.
- **Regularly sweep** away wet leaves, pine needles, and other debris to keep your entry looking tidy and make pathways safer for guests.
- **Wipe down** outdoor furniture, replace faded cushions, and put away anything you won't be using during the cooler months.
- **Clean your windows** inside and out to help your home look brighter and more polished from the curb.
- **Keep seasonal décor simple** with a few pumpkins, a wreath, or subtle fall touches that complement your home rather than overwhelm the entryway.
